Office Action Reply Page 1 of 11

Application Number: 10/604,601 Examiner: Pedro J. Cuevas Art Unit: 2834

April 20, 2005

**REPLY TO DETAILED ACTION*****Allowable Subject Matter***

Subsequent pages of this Office Action Reply include the currently amended Claims. Claims 19-22 and 25, per the recommendation of the examiner have been  
5 rewritten such that these claims now exist in independent form including all of the limitations of the original base claim 17 and its preceding intervening claims. The claims addressed by this comment in the first Office Action, Claims 19-22, and 25, 26, now being dependent upon claim 17 and its intervening claims, in their currently amended form all presently fall into the category of allowable subject matter as stated in the first  
10 Office Action.

The applicant hereby requests likewise reconsideration of claims 31, 32 and 34 because in their previously presented form these claims now have dependence upon claims of allowable subject matter instead of dependence upon objected claims as in their  
15 original form and therefore with the currently amended claims 19-22, 25, the scope of claims 26, 31, 32, and 34 have also narrowed to include the subject matter of patentable novelty.
